EDUCATION

University of North Dakota, Aug 2022 - May 2026

- Bachelor of Science: Atmospheric Sciences
- Minors: Mathematics, Computer Science
- GPA: 3.651

WORK

NASA OSTEM Intern, Jun 2026 - Aug 2026

EXPERIENCE

GSFC Global Modeling and Assimilation Office

- Create a Python utility to gather and analyze GEOS data
- Evaluate modeled AOD within the GEOS systems
- Provide recommendations for improvement to GEOS-CAM

Undergraduate Teaching Assistant, Jan 2026 - May 2026

UND Department of Atmospheric Sciences

Computer Concepts in Meteorology

- Demonstrate analysis of various datasets in meteorology
- Promote students independent coding capabilities
- Teach data visualization and plotting techniques

Undergraduate Teaching Assistant, Aug 2025 - Dec 2025

UND School of Electrical Engineering and Computer Science

Introduction to Computer Science Lab

- Develop beginner level python labs
- Use real world meteorology based problems to teach python
- Clearly explain computer science concepts

Undergraduate Research Analyst, Feb 2025 - May 2026

UND Department of Atmospheric Sciences

- Analyze planting date and crop yield data
- Plot MODIS Leaf Area Index data using python
- Identify point specific crop properties using python
- Analyze trends in wildfire smoke, fire size, and lightning strikes

Student Airborne Research Program Intern, June 2025 - Aug 2025
NASA

- Collect in-situ data on research flights and ground truthing trips
- Analyze ground station, satellite, and air data using python
- Calculate methane flux using the mass balance technique

Undergraduate Teaching Assistant, Aug 2024 - May 2025
UND Department of Atmospheric Sciences
Introduction to Meteorology Lab

- Effectively convey information to students
- Clearly explain lab set-up and steps
- Grade and provide clear feedback for ~30 students

System Engineering Intern, May 2024 - Aug 2024
Space Dynamics Laboratory

- Design and develop fundamental satellite systems
- Collaborate with professionals during system and design reviews
- Reiterate and improve design concepts

ACTIVITIES

Student Liaison to the Undergraduate Curriculum Committee, May 2025 - Present
UND Department of Atmospheric Sciences

- Represent students to the undergraduate curriculum committee
- Gather and report student feedback to curriculum committee
- Provide student perspective on potential changes to curriculum

Study Participant, Mar 2025 - Present
UND BiPed Laboratory

- Evaluated lunar boot outsole prototypes in a simulated lunar gravity environment
- Provide feedback on maneuverability and durability of outsoles

Chapter President, May 2024 - May 2025
American Meteorological Society

- Plan and lead bi-weekly chapter meetings for ~40 members
- Lead fundraising events
- Organize travel and lodging for chapter at national conference

Student Scientist, Aug 2023 - Jan 2025

NASA Nationwide Eclipse Ballooning Project

- Prepare and launch radiosonde equipped weather balloons hourly around solar eclipse and frontal passages
- Monitor instrument readings, health, and signal
- Teach and lead group through the launching process

SKILLS

Programming Languages

- Python (Intermediate)
- Java (Beginner)
- C (Beginner)
- C++ (Beginner)
- C# (Beginner)

Microsoft

- Office Suite (Intermediate)

HONORS/AWARDS

Atmospheric Sciences Outstanding Senior Scholarship (2025)

Bruce A. Smith Aerospace Scholarship (2025)

Leon F. Osborne Scholarship (2024)

Kenneth Gunder Harstad Scholarship (2024)

Roy Wehe Scholarship (2024)

Atmospheric Sciences Outstanding Sophomore Award (2024)

Atmospheric Sciences Outstanding Freshman Award (2023)

Ethel and J Lamar Stone Scholarship (2022)

UND Academic Achievement Scholarship (2022 -2025)
